## WEEKLY REPORT

Week-1 (From Dt 4-5-2023 to Dt 9-5-2023)

**Objective of the Activity Done:** Socio Economic Survey

**Detailed Report:** I am D.Nani, I studying in II B-com (CAI) am a part of community service project in village. I survey successfully 10 houses this week. With in this week I visited 10 houses of the mentioned families in previous page. They interacted very positively with me. I was able to survey them and able to collect all the required data from them.

Most of the members of the family are not educated. They are dependent on agriculture and business. Most of the people living in the village are having their own houses, rent houses and the building are mostly pucca and kutcha houses.

Entire village is with drinking water tap connections provided by Government

In the first week I conducted on these families

## WEEKLY REPORT

Week-2 (From Dt 17-5-2023 to Dt 22-5-2023)

**Objective of the Activity Done:** Socio economic survey

**Detailed Report:** I am D.Nani, studying in II B.com (CA). In this second week, continued surveying the houses in Uadurru village. In this week I have mainly concentrated on the following issues.

We organized 10 people in a group in our village and made them all aware about drinking water.

1. Water should not be wasted
2. Do not put any waste material in drinking water
3. Drainage pits should be constructed so as not to waste rain water
4. Natural fertilizers should be used for crops, because the use of chemical fertilizers pollutes water. This causes harm not only to humans but also to animals
5. Contaminated water should not be discharged into the drains. Due to this skin diseases are prevalent.

## WEEKLY REPORT

Week-3 (From Dt 15-7-2023 to Dt 20-7-2023)

**Objective of the Activity Done: surveying and collecting online shopping questionnaire**

**Detailed Report:** : I am D.Nani, studying in II B.com (CA). In this Third week, continued surveying the houses in Unudurruvillage. In this week surveying and collecting online shopping

In our city people from 16 years old to 60 years old are using android cell phones. These cell phones are mostly used for online shopping. Most of them are young people. After surveying them, it is known that online shopping saves time and money said.

### **Problems in our community**

1. The roads are not proper
2. Farmer are using more and more chemical fertilizers and pesticides
3. There is no proper sanitization and cleaning of streets in our community
4. There are no proper signals for
5. different types of mobile networks

### **Solutions to the problems**

1.R&B should work with local authorities to develop comprehensive infrastructure development plans that outline short-term and long-term goals for road development. These plans should guide decision making and resource allocation.

2. The government should provide training and resources to farmers about the negative effects of excessive chemical use. They should be shown alternative methods that are equally effective and less harmful.

3. Interact with local government officials and sanitation departments to discuss the problem and potential solutions.

\* Resources should be increased and funded for street cleaning and sanitation programs

4. Local government should be involved with authorities for better mobile network infrastructure as a key component of community development.

Obtain support in obtaining permits and approvals for new cell towers or equipment installations.

### **COMMUNITY AWARENESS PROGRAM CONDUCTED OUT COMES**

# A STUDY ON UTILIZATION OF ONLINE SHOPPING IN UNUDURRU

## INTRODUCTION

I have done community service project by the guidance of our mentor and I have chosen topic is "Online Shopping". To do survey near our community area.

The reason of why to find problems and solutions in online transactions in society. By doing this project. I have gained knowledge about online shopping and its effect on mental health. Due to parents, society etc., and all over India literacy effect also on online shopping among all the states.

Online shopping is a form of electronic commerce which allows consumers to directly buy goods or service from a seller over the internet using a web...

### Methods of payment

- Cash on delivery
- Credit card
- Debit card
- Internet banking

### HISTORY OF ONLINE SHOPPING

- English entrepreneur MICHAEN ALDRICH invented online shopping in 1979
- During the 1980s he designed, manufactured sold, installed, maintained and supported many shopping systems, using video text technology.
- The first world wide web server and browser, created by TIME BERNERS-LEE in 1990 opened for commercial use in 1991
- Immediate after, Amazon.com launched its online shopping site in 1995 and eBay was also produced in 1995.

### FINDINGS

The respondents are preferred flipkart and meeshow android app for online shopping. Which were trusted apps a CSP area

- Direct Delivery
- Cheap rate
- Good quality

The above factors are influencing the respondents to buy online products

### SUGGESTIONS:

By analysing and identification of some problems. I have plan short term and long-term plan for solutions to problems on online shopping.

- Short term; we have to analyse the product prices in various apps while purchasing any product through online

## OBJECTIVES OF THE CSP

1. To know the living conditions of the people.
2. To realize stark realities of the society to develop social consciousness responsibility and accountability.
3. To develop inner strength and invent solutions to social problems.
4. To develop a holistic life perspective.
5. To study the financial literacy among the people.

## SCOPE OF THE STUDY

Present social and economy status of people

## **RECOMMENDATIONS AND CONCLUSION**

I strongly recommend that to follow online shopping. During COVID-19 online shopping are reached every where in community service project area

In exchange online shopping as opened up doors to many small retailers that would never be in business if they had to incur the high cost of owning a brick.

Technology has made significant progress over the years to provide consumers a better online shopping experience and will continue to do so for years to come.

With the rapid growth of products and brands. People have speculated that online shopping will overtake in store shopping.
