POLICY ON WASTE MANAGEMENT

Waste management is the process of collecting, transporting, treating and disposing of waste in a safe and environmentally friendly way. Waste management also involves reducing, reusing and recycling waste as much as possible to conserve natural resources and save energy. Waste disposal is becoming more difficult and costly due to the scarcity of land, water and energy resources and the stricter environmental regulations and standards. Waste management is a legal obligation and a social responsibility for all waste generators and handlers, as well as a moral duty for all citizens, to ensure the sustainability and well-being of current and future generations. In this context our institute is committed to proper waste management policy.

Objectives of the policy

- To manage waste effectively.
- To minimize waste generation.
- To adopt waste management procedures.
- Degradable and Non-degradable Waste Management.

Procedure

The institution is committed to reduce and manage waste generated on the campus. In order to ensure the protection of environment, the following specific procedures have been implemented.

- Systematically address the 3Rs of being green (reduce, reuse, recycle).
- Reduce solid waste by developing a technology-centric management model.
- Reduce paper consumption as much as possible by supporting the digitalization of attendance records and Internal assessment records.
- Initiatives to raise awareness among students about food waste and ways to minimize it.
- Minimize the use of packaged foods in the campus.
- Reuse and recycle non-degradable products.
- Organize various programs for students on degradable and non-degradable waste management

E-Waste Management

The Institute follows a proper disposal mechanism of e-waste of various types of electronic gadgets namely computers, printers, cables, keyboards etc. They are sold to an authorized recycling agency by adhering to the norms and guidelines issued by Government and Regulatory bodies regarding to e-waste management.
